Hi, Joan:

Attached for your review is the fourth PCB report entitled *Laboratory study of polychlorinated biphenyl (PCB) contamination and mitigation in buildings -- Part 4. Evaluation of the Activated Metal Treatment System (AMTS) for On-site Destruction of PCBs.*

The associated QAPP is entitled *Evaluation of coatings for encapsulating building materials contaminated by polychlorinated biphenyls (PCBs) and a NASA method for PCB destruction* (QLOG No. A-13954 / QTRAK 10006)

I have dropped the data CD in Billy's in-box.
